Plans have changed from completing the MV and DK intervals on the subject well to including the Basin Mancos also and then trimingling the three zones. The plat for the WC Basin Mancos is attached. The design for completing will just include perforating and stimulating the Mancos also. The C107A to commingle will be submitted and approved before the commingling actually occurs. We will also be filing for an amendment to NSL Order 5528 to include the Mancos.
