Having drilled to a TD of 4985' without finding natural fractures in any of the Gallup Sandstones and finding the Dakota Sandstones to be tight, High Plains proposes to plug the well back and temporarily abandon the well until Finley Resources has drilled a horizontal lateral from San Isidro 16-10, which is located in Section 16, T20N, R3W on Lease No. NMNM105185. Then, either a horizontal lateral may be drilled, or the well may be turned over to the Chacon Brothers, the owners of the surface, for completion as a water well.
