	<input type="checkbox"/> Change Plans <input type="checkbox"/> Plug and Abandon <input type="checkbox"/> Temporarily Abandon
	<input type="checkbox"/> Convert to Injection <input type="checkbox"/> Plug Back <input type="checkbox"/> Water Disposal

13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On the evening of July 20th, 2007 lightening struck an Elm Ridge oil tank and ignited a fire. The fire department was on scene and put the fire out. On the morning of July 21, 2007, an Elm Ridge employee went to the location and gauged the tank at 4'9". He pulled water from around the production tank. The water was a result of the fire truck. Pulled 2'11" of water out of the tank. 59 bbls of water was in the tank, it was removed and disposed of in the pit. The remaining oil was transferred from tank GI 10463 to the Jicarilla Apache B-12-E (30-039-27723) Tank GI 10513. It was a total of 36 bbls transferred. Sealed the tank. We estimated a loss of 34 bbls due to the fire.
