13. Describe Proposed or Completed Operations

Attn: Ray Sanchez

It is intended to move impacted soil from the Marcotte #1 to the Marcotte #2.

Background:

- The Marcotte #1 and the Marcotte #2 are in the same Mesaverde spacing unit.
- The wells share the same spacing unit and are on fee land
- Work start date 9/22/03
- The duration of the soil being placed on the Marcotte #2 is a maximum of 1 year
- The impacted soils will be generated from a soil remediation excavation activity at the Marcotte #1.
- The soils will be transported within two weeks across gravel/soil oil and gas lease roads starting 9/22/03.
- Landfarm every 2 weeks. The area used for landfarming will be 1/2 to 1 acre.
- We will conduct the Landfarming operations in accordance with applicable OCD and BLM regulations.
- Soils will be land farmed on location to expedite the natural remediation of the impacted soil
- Upon successful remediation the excavated soils will be returned to the original excavation at the Marcotte #1 or a suitable environmentally approved use will be determined.
- Approximate amount of soils to be moved to the Marcotte #2 is 1000-1500 cu yds

14. I hereby certify that the foregoing is true and correct.
