13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The referenced well Bunny Tracks #1 in Rio Arriba County, NM is allocated within acreage operated by Benson-Montin-Greer Drilling being offered for sale at the December 12-13, 2007 Oil & Gas Asset Clearing House Auction. The well is important to the offering and BMG requests an additional extension of time to allow for the sale and the purchaser to establish de-watering or analyze future production plans. The July 16, 2007 Sundry mis-stated BMG's intentions for the well. We would attempt to de-water the coal if the sale is not completed. *extension to 12/31/07*
