DHC 2729 A 2

Four Star Oil & Gas Company respectfully submits this application for administrative approval to downhole commingle (DHC) production from the Otero-Chacra (82329) and the Blanco Mesaverde (72319) pool within the same wellbore of the Blanco #1A. Both of these pools are included in the pre-approved pools for downhole commingling established by the NMOCD Division Order R-11363, amending rule 303.C (Case No. 12346 w/ Exhibit "A").

This well is currently completed in the Blanco-Mesaverde pool. We plan to pull tubing and production equipment, perforate and fracture the Otero-Chacra pool, the RIH with tubing string, and Downhole Commingle produce both pools within this wellbore.

Please see the attached documents for additional information. Should you have any questions or require additional information, please feel free to contact us at any time.

RCVD NOV 2 '07

This form's concurrent DHC Application is being made with the BLM-Farmington Office, on form 3160-5, on this same date.
