13. Describe Proposed or Completed Operations

This is the well pad we will be drilling five wells from, the SJ 27-5 #911, 910, 912, 914 & 915. The pit needs to be adjusted from our standard pit layout to accommodate the rig anchors for drilling the five wells from the same well pad. The attached diagram shows a top aerial view of the pit and you will notice that the difference if you compare the original pit diagram with this revised diagram.

The pit will be closed according to COPC/BRs Pit Closure Guidelines after the final well is drilled and completed.
