Four Star Oil & Gas Company respectfully requests permission for installation of surface production facilities which includes installing a 95 Bbl Below-Grade Pit Tank for blow down and/or excess produced water; and installing, modifying and upgrading other surface facilities, as necessary. Current plans are to initiate this surface facilities work within the next couple weeks. This work will all reside on the current pad, thus no "new disturbances" are anticipated. Attached is a standard diagram of the Pit Tank for your use and review. Concurrent filing of this request to the BLM on their Form 3160-5 is also being done on this same date.

Your approval of this request to install this 95 Bbl Below-Grade Pit Tank and upgrade surface facilities, as necessary, will enhance the environmental and economic capabilities of this well and lease.
