13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BP America Production Company respectfully requests approval to move equipment (backhoe) to the subject location and conduct preliminary investigation by digging around the existing P&A marker. BP will following all required safety notifications and conduct all activities with strickess regard to safety and regulatory practices. It is estimated that activities would take one (1) day to complete.

Subject well was plugged by BP Amoco in Dec. 1999. As previously stated in correspondence dated 3/21/08, the location was found to be leaking oil and water to the surface. BP personnel visited the location on 4/22/08 and concur the well sight is leaking oil to the surface.

In recent conversation with Steve Mason (BLM) and Tiffany's representative Mr. Joel B. Burr, Jr. BP America acknowledges responsibility to re-plug the above referenced well.

Please contact Larry Schlotterback @ 505 326 9425 if you have questions concerning activities.
