Re: Payne 11, A, 25, 32N, 10W, API # 30-045-26804 🔝 🕬 🕬

Dear Ms. Zubrod:

The 2008 Bradenhead test on the above well indicates a failure. In order to comply with Rule 108, prevent waste and protect fresh water, you are hereby directed to initiate remedial activity before January 9, 2009. Initial bradenhead psi of 160 was reported with a 5 minute shut in pressure of 27 psi.

With your sundry please attach a copy of the last two tests, a current wellbore schematic including formation and cement tops. Indicate the method used to determine the cement tops, and provide gas analysis from all casing strings.

Reference: RBDMS KGR0828163300 on future correspondence.

Notify the Aztec OCD 24 hours before work is initiated.

If you have any questions, please call me at 505-334-6178, ext. 16.

Sincerely yours,

Kelly G. Roberts

Deputy Oil and Gas Inspector
