13. Describe Proposed or Completed Operations

Please consider the referenced well for an exception to the new seasonal drilling restrictions. We submitted the application for permit to drill this well on 7/21/2003 and received approval from the BLM on 8/22/2003. The location has been built, the well was spud and surface casing was set and cemented on 9/26/2003 by MO-TE. It is intended to move on location with the next available rig around December 8, 2003. Plans are to finish drilling, casing & cementing, and place the well on production by December 17, 2003. The wellbore will completed by underreaming from intermediate to TD, set a 5-1/2" liner and run production tubing. The well will not be recavitated until Spring 2004.

14. I hereby certify that the foregoing is true and correct.
