Well: Ute #27
Lease Number: I22IND2772
Communitization Agreement:
API Number: 30-045-29276
Location: Sec. 165, T32N, R14W.
San Juan County, New Mexico

BACKGROUND:

This 1995 Vintage Paradox well reportedly has cement circulated to surface behind the surface conductor at 72', the 8-5/8" at 1027' cemented with 1268CF cement, the 5 1/2" at 8760' with 4310CF cement. The work-over pit shall be reclaimed directly after the rig moves off location and the fluids pumped off, any contaminated soils removed from the reservation and the pit closed. This exception is granted for this event only and should not be considered a standard exemption for other wells with work-over pits. A reason for the need of extra time shall be documented on all future sundry notices to this effect.

The Sundry notice received April 15, 2009 requesting approval to extend the reclamation date until June is approved with the following conditions:

CONDITIONS OF APPROVAL

1. The reclamation shall be completed by June 1, 2009 to State of NM standards with all contaminated soils removed from the reservation to an approved disposal site.
2. The BLM reserves the right to cancel this approval at any time.
