13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

A pump jack is being moved to this well as of this writing. NAPI has required us to lower the flow lines in this area so that an irrigated field can be installed. If required, we can install a temporary oil storage tank to test the well prior to lowering the flow lines. A sundry notice will be filed when the well is returned to production.
