If a Watercourse was Impacted, Describe Fully. **OIL CONS. DIV. DIST. 3**

Describe Cause of Problem and Remedial Action Taken.  
**While filling reserve pit to initiate drilling operations discovered small tear in liner cause not certain. Immediately discontinued filling operations and removed water from pit below tear.**

Describe Area Affected and Cleanup Action Taken.  
**Patch liner. Closure pit following completion of new well. No further action being taken at this time.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
