If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Update to previous sundry approved 1/25/2010.

BP's internal integrity testing & modification to the 3rd party wellhead compressor is complete.

At this time the well site is being prepared & dirt movement is taking place. Weather conditions have slowed the work progress & things are moving slower than expected.

Barring any further weather delays BP expects to set the compressor by the end of March and restore the well to production by April 15, 2010.

Please call Andrew Berhost @326-9208 if you have any questions.
