Farmington, NM 87402

Dear Mr. Greer:

In answer to your letter of January 6th to Frank Chavez, The special pool rules as amended by R-2565-D, February 10, 1986 include the interval between the base of the Mesa Verde Group and the base of the Greenhorn (Bridge Creek Limestone) member of the Mancos Formation. This order superceded the letter from Frank Chavez of December 10, 1984 that ordered separate reporting.

Rather than try to alter the production reports since the order changed the limits, please start reporting the production as one pool from now on.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven N. Hayden".
