the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLMBIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.) DJ Simmons, Inc. only recently acquired the Gallegos Wash properties from Merrion Oil & Gas, Corporation in June of this year. The Hanson No. 33 Well is located on one of those properties. Currently, the geologist and engineer are evaluating the geologic data and reserves for those properties in order to determine how to maximize production of that field. We would like to understand the previous operator's past practices in order to determine the most effective relationship of the reservoir to performance in order to maximize resource. Until the research and evaluation of the log analysis and project study are completed, we will not be able to decipher whether this well should be worked over for production, or plugged and abandoned. Therefore, DJ Simmons, Inc. would like to request an extension of the Temporary Abandonment for the Hanson No. 33 Well, in order to complete the geologic and engineering research and evaluation of the log analysis and project study are completed, we will not be able to decipher whether this well should be worked over for production, or plugged and abandoned. Therefore, DJ Simmons, Inc. would like to request an extension of the Temporary Abandonment for the Hanson No. 33 Well, in order to complete the geologic and engineering research and evaluation of the log analysis and project stu	Final Abandonment Notice	Convert to Injection	Plug	Back	— ' '
