By Whom? <b>Don Brooks</b>	Date and Hour <b>November 23, 2003 7:50 AM</b>	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

**The water haulers were filling frac tanks with produced water when the tire chains hanging from the rear of the truck hooked the hose that was attached to the load valve, and snapped the valve off of the tank.**

Describe Area Affected and Cleanup Action Taken.\*

**The produced water was diverted to the reserve pit. The produced water will be evaporated from the pit during the completion operations of this well.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
