NATURE OF RELEASE

Type of Release	Gas Release	Volume of Release	300 MCF	Volume Recovered	0
Source of Release	Flow tee on wellhead	Date and Hour of Occurrence	9/8/04 - 9/10/04	Date and Hour of Discovery	9/10/04 4:00 PM
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Denny Foust		
By Whom?	Don Brooks	Date and Hour	9/10/04 4:10 PM		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Flow tee on wellhead developed a split in the threads downstream of the master valve. Could not get master valve to close due to blockage by a plunger that had been running in the well. Well was blown down, and we were getting ready to kill the well when the trapped object cleared the master valve. We isolated the well with the master valve, and installed a second master valve for added protection. This release was initially thought to be 500 MCF, so an immediate call was placed to the NMOCD, however further investigation and better data showed the release to be 300 MCF.

Describe Area Affected and Cleanup Action Taken.*

Soil on location was raked due to release of fine mist of water/condensate. Estimated fluid release was minimal.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
