NATURE OF RELEASE											
Type of Release – Produced Water & Slop Oil						BBL Produced water & 0.5 BBL Slop Oil)				lume Recovered –	99 BBL
Source of Release: Rubber Hose on Water Transfer Pump						Date and Hour unknown	of Occurrence			te and Hour of Dis 5/10 – 1:00 p.m	
Was Immediate Notice Given?   ☐ Yes ☐ No ☐ Not Required						If YES, To Whom? Brandon Powell (verbal and email)					
By Whom?						Date and Hour - 1/8/09 2:30 p.m. RCUD JAN 20 '10					
Was a Watercourse Reached? ☐ Yes ☒ No						If YES, Volume Impacting the Watercourse.  OIL CONS. DIV.					
If a Watercourse was Impacted, Describe Fully.*						DIST. 3					
Describe Cause of Problem and Remedial Action Taken.* On January 6, 2010, it was discovered that the rubber hose on the suction side of the water transfer pump had disabled due to a freeze in the suction line. Upon discovery, the valve											
going to the water transfer pump from the tank was shut in and a water truck was called to location.											
Describe Area Affected and Cleanup Action Taken.* All fluid remained on location and within the berm. Approximately 99 BBLS of fluid were recovered by a water truck. COPC will assess the impacted area and remediate, if needed.											
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
