

NEW MEXICO  
OIL CONSERVATION COMMISSION  
AZTEC, NEW MEXICO

October 4, 1955

Mr. Ed W. Cannedy  
616 Central Aven. S.E.  
Albuquerque, New Mexico

Dear Sir:

We are holding Notice of Intention to Drill on your #1 Drought-Booth in the SE 4-15N-6W pending receipt of surveyor's plat showing location of the well.

We also note that this is an unorthodox location which does not correspond to either gas or oil well spacing. If you have made the location where it is because of topographic reasons, then it will be possible for you to secure approval by writing Mr. W.B. Macey, Secretary-Director of the Oil Conservation Commission, Box 871, Santa Fe, N.M. setting out the reasons for this location. You should also enclose waivers from all offset lease owners if you do not own the offsets.

Yours very truly

Emery C. Arnold  
Supervisor, District #3

NEW MEXICO  
OIL CONSERVATION COMMISSION  
ALBUQUERQUE, NEW MEXICO

October 4, 1935

Mr. H. W. Gentry  
100 Central Ave., S.E.  
Albuquerque, New Mexico

Dear Sir:

We are holding out as of this date to drill on your 40 acre tract in the SW 1/4 of Section 16, Township 16N, Range 1E, containing 160 acres of surveyed land showing location of the well.

We also note that there is an unperfected location which shows that you have an oil well spacing. If you have made this location, please let us know as to the location of the well. It will be desirable for you to secure approval by writing Mr. W. B. Mackey, Executive Director of the Oil Conservation Commission, P.O. Box 100, Santa Fe, N.M. setting out the reasons for this location. You should also enclose waivers from all other lease owners if you do not own the oil.

Yours very truly

Ernest C. Arnold  
Superintendent, District 10
