Re: Roy M Eidal  
(Canoncito) Drought-Booth  
Well No 1.

Approval of an unorthodox location was given for the  
above well (which was P&A for oil).

The original location, however, as given to you, was  
based on certain physical factors we assumed existed  
from the previous location of the Richfield #1 Drought-  
Booth. When finally surveyed out, this did not quite  
conform, and the actual location, as surveyed, was

2069 from the East Line and  
2532 feet from the South Line  
Section 4, Twp 15N, R 6W,  
McKinley County, N Mexico.

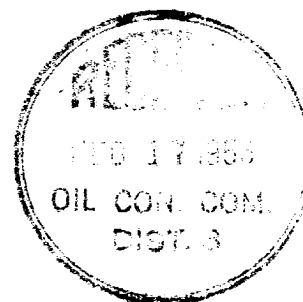

We would appreciate approval of the unorthodox location  
as it finally turned out..

Yours very truly,

ROYAL DEVELOPMENT COMPANY

Re: Roy M. Eidel  
(Consolidated) Prospect-2000  
Well No. 1.

Approval of an unorthodox location was given for the above well (which was P&A for oil).

The original location, however, as given to you, was based on certain physical factors we assumed existed from the previous location of the Richfield #1 Prospect-2000. When finally surveyed out, this did not conform, and the actual location, as surveyed, was

2000 feet from the West line and  
2000 feet from the South line  
Section 4, Twp 15N, R 6W,  
Holliday County, N. Mexico.

We would appreciate approval of the unorthodox location as it finally turned out.

Yours very truly,

ROYAL OIL FIELD COMPANY
