OIL CONSERVATION COMMISSION SANTA FE, NEW MEXICO

Aute o, New Mexico

July 30, 1949

Mr. John Ford, Superindendent Gallup Dome, Inc. Gallup, New Mexico

Dear Sir:

Rnelosed you will find the necessary forms for your use in plugging and abandoning your Gallup Dome well. Also enclosed is Supplemental Circular No. 6-A which you will follow these instructions for the work to be done. As I explained to you, in order to get your bond cancelled, the well must be permanently abandoned. In that event, you will fill the hole to the top with well mixed heavy mud and cement a steel marker which will extend at least four feet above the ground.

For temporary abandonment you culd install a swedge nipple or bull plug in the top of the casing, fill up the cellar to the surface so there will be no danger of anything falling in. If this is done, you understand, that your bond will not be cancelled until the well is permanently abandoned.

Yours very truly,

Al Greer

AG:mt

P.S. In the event that you decide to permanently abandon this well, due notice shall be given the Commission as to when plugging operations will begin.

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.
