

Grants, New Mexico
November 5, 1954

Mr. W. B. Macey
Secretary-Director
Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Sir:

We have an oil and gas lease from the Santa Fe Railroad Company on Section Twenty-three (23), Township Fifteen North, Range Ten West (T 15 N, R 10 W), N.M.P.M., McKinley County, New Mexico, which requires us to drill a well in the immediate future on this section. Our geologist advises us that in his opinion the underground strata is such that he does not recommend any location which would fall under the orthodox locations for an oil well. He recommends that the proposed well be drilled 600 feet east from the northwest corner of this section and 50 feet south from the north line of this section.

Request is hereby made to the Oil Conservation Commission for the drilling of a well at this location which is an unorthodox location.

Thank you for your courtesies and cooperation.

Very truly yours,

ELMER L. WHITE
