Mr. Emery Arnold  
Oil and Gas Conservation Commission  
1000 Rio Brazos Road  
Aztec, New Mexico

Dear Emery:

*H* This letter is in regards to the proposal by Whigham Drilling Co. Inc. for an increase of allowables (90BBLs) for their No. 3 CTV well located 1392' FEL and 1650' FNL of Sec. 12 T 17N, R 9 W. I understand they are asking for increased allowables due to an overage of acreage in the form of lots along the east side of the section. (acreage allocated to the well would be SE/NE and contiguous Lot 4.)

I have talked with Mr. J. Ewing Walker of Walker Bros. Oil Company this morning and we have no objections to this proposal. Walker Bros Oil Co. have under lease the east offset acreage.

Very truly yours,

*R.E. Lauth*
