Dear Mr. Banner:

While visiting with you in Farmington, you stated that you would be in Wichita Falls within a few days at which time I could give you some information on the plugging of the oil well drilled in December of 1954 on the oil lease we hold in New Mexico. For some reason, we failed to make contact with each other while you were here; therefore, I decided to send you a copy of the letter I received from Emery C. Arnold, Oil & Gas Inspector of District No. 3, New Mexico Oil Conservation Commission, Aztec, New Mexico.

I would appreciate it if you would go by and talk to Mr. Arnold to see if you can get this bond released. Since your company was the one that plugged the well, I thought perhaps you could give him more information than I could.

Any help that you can give us in securing the release of this bond will be appreciated.

Very truly yours,

L. F. Miller
