

OIL CONSERVATION COMMISSION
1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

June 1, 1966

Mr. Orville Moore
Box 666
Grants, New Mexico

Dear Mr. Moore:

On May 18, 1966 we received a letter from Mr. Edmund F. Ball which was written in reply to our letter of May 13, 1966. I am enclosing copies of this correspondence in order that you may be advised of the Oil Conservation Commission policies with regard to conversion of the #1 Wolfenden well in 28-17N-7W to a water well.

As we indicated in our letter of May 13 we will require that casing be set at the water sand and be cemented in such a way that all artesian water from the massive Gallup be contained in the casing. We are enclosing a supply of Form C-103. When you have decided what size casing you will use and how it will be cemented, please submit this form in triplicate, setting out the details of the proposed work. As soon as you have received an approved copy of this form you may proceed.

If you have any further questions regarding the matter, please contact us.

Yours very truly

Dear Sir:

Enclosed for you are two copies of a letterhead memorandum dated June 1, 1964, and captioned "Oil Conservation Commission, New Mexico, Report on the Status of the Oil and Gas Resources of the State of New Mexico". This memorandum was prepared by the Oil and Gas Division of the New Mexico Department of Conservation and is being furnished to you for your information.

The memorandum contains a summary of the oil and gas resources of the State of New Mexico, as determined by the Oil and Gas Division of the New Mexico Department of Conservation. It also contains a summary of the oil and gas production of the State of New Mexico, as determined by the Oil and Gas Division of the New Mexico Department of Conservation. The memorandum is being furnished to you for your information.

Very truly yours,
