Re: Proper Abandonment
CTV Oil & Gas Co, #1 Wolfenden
1980/N; 990/E, 28-17N-7W

Dear Mr. Hatch,

Please refer to my letter of February 23, 1967, regarding conversion of the above well to water well.

On February 28, 1967 4½" casing was run to a depth of 1630' in this well and was cemented with sixty sacks regular cement. A properly executed form C-103 has been filed reflecting the above information and was approved in this office on 3-10-67.

The operator has therefore complied with all requirements of The New Mexico Oil Conservation Commission and I request that the one well plugging bond issued by Fidelity & Deposit Company to CTV Oil & Gas Company for this well be cancelled.

I am attaching approved copies of form C-103 reflecting the operations completed on this well and also an affidavit of responsibility for conversion to water well which is properly executed by both the operator CTV Oil & Gas Company and the land owner BB&S Properties Inc.

Yours very truly,

Emery C. Arnold
Supervisor Dist #3
