Re: Santa Fe E Well #1
660/South; 1980/East
17-18N-9W, McKinley
County, New Mexico

Dear Sir:

Please refer to our letter of July 15, 1966 setting out New Mexico Oil Conservation Commission requirements for conversion of the above well to a water well. A copy of our letter of July 15 was sent to Tidewater Oil Company and in response to this we received electric logs on their wells in the area.

I am enclosing a copy of Tidewater's letter to us. You will note that their information seems to indicate that the water being produced is probably from the Hospah-Gallup zone rather than the Point Lookout zone. We would, therefore, require that casing be installed to the Gallup formation and cemented in place in order to convert the well as a water well. If a completion attempt is made in the Point Lookout zone we would require that a cement plug be set between the Gallup zone and the Point Lookout zone to prevent commingling. We also must insist that in the near future the wells either be properly converted to water wells or plugged and abandoned in accordance with our regulations. We are notifying Tidewater Oil Company with a copy of this letter.

If you have any further questions regarding the matter, please contact us.

Yours very truly

Emery C. Arnold
Supervisor, District #3
