Dear Sir:

The New Mexico Oil Conservation Commission has informed me that something will have to be done in the near future regarding the final disposition of Santa Fe "E" Well No. 1, which we drilled on your property.

I regret that conditions changed regarding the Commission requirements for a water well completion since we discussed it.

Will you please notify this office or the Commission office in Aztec as to whether you desire to complete the well as a water well according to the Commission Regulations. If you do not desire to complete as a water well, I feel sure the Commission will request that Tidewater finish plugging the well to the surface.

Very truly yours,

TIDEWATER OIL COMPANY
