Mr. T. A. Dugan
Box 234
Farmington, New Mexico

Dear Tom:

I am returning Forms C-103 which you have filed relative to the plugging and abandonment of the Christmann, Markham, Welborn and Bolack #1 Lucky "B" well. I have examined the intention to plug and it is acceptable; however you have not signed it. The subsequent report of plugging is identical with the Notice of Intention to Plug so that it is impossible to determine from reading the notice whether or not the work was actually performed. I would appreciate it if you would remake the C-103 and state a little more specifically what work was performed and give the date the work was performed. This form also must be signed.

I have just noticed that you did not sign the Form C-105, so am also returning it for signature.

Yours very truly

Emery C. Arnold
Supervisor, District #3
