CASING TEST AND CEMENT JOBS <input type="checkbox"/>	OTHER <input type="checkbox"/>

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was drilled to test the productivity of the Seven Lakes Sand in the Hospah Field. To date we have been unable to establish a commercial rate of productivity. We, therefore, request permission to temporarily abandon the well. As of this time we plan to try thermal and perhaps some other type of secondary-recovery techniques on this horizon; however, we do not wish to undertake any such efforts during the winter months.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
