Detailed account of work done, nature and quantity of materials used, and results obtained.

This report is to report an error in location of the Santa Fe #3 well which was drilled 330' FEL & 330' FSL and not 425' FSL & 425' FEL as shown on original location plat. Error came about because we had both locations surveyed and when we decided to drill at the 330'-330' location we inadvertently sent in the wrong plats.
