Dear Sir:

We have your letter of April 24, 1967 concerning conversion of your State Tract 18 #2 well, located in L-32-19N-12W, to a water well.

We note from our file that no subsequent drilling reports have been filed on this well indicating to what depth the well was drilled or what casing was installed.

I am enclosing a supply of form C-103 and form C-105. Please submit form C-103 in triplicate showing where casing was set and cemented. Form C-105, well record form, should be submitted in sextuplicate summarizing all work that was done and indicating the formation record.

Based upon this information we will be able to instruct as to state requirements for conversion of the well to a water well.

I am also enclosing a memorandum concerning the problem in general and also an affidavit of responsibility for conversion to water well which should be returned to this office, executed in duplicate, after the work is completed.

If you have any further questions regarding the matter, please contact us.

Yours very truly,

Emery C. Arnold
