RE: Mechanical Integrity Test (MIT's)
Whigham #2, P-11-17N-09W

Dear Mr. Kane:

The New Mexico Oil Conservation Division, as part of its Underground Injection Control authority, requires Citation Oil and Gas Corporation to perform an MIT on the above injection well once every five years. An MIT was due on this well August 7, 1990.

The mechanical integrity of the casing-tubing annulus is tested by submitting the annulus to a pressure of 300 psi for 30 minutes for less than ten percent bleed-off as outlined in Commission Rule 704. Citation is required to complete the MIT by September 1, 1992.

We require a 24 to 48 hour notice so that we may be present to witness testing. Citation will furnish personnel and equipment to complete the tests.

If you have any questions please feel free to contact this office.

Sincerely,

Dianna K. Fairhurst

Dianna K. Fairhurst
Deputy Oil & Gas Inspector
