March 18, 1968

Burwinkle & Scanlon
120 Vassar Drive
Albuquerque, New Mexico

Gentlemen:

Form C-103 dated March 10, 1968, received March 13, 1968, requests permission to produce the Burwinkle & Scanlon Ohwell #5, C-28-20N-9W, Chaco Wash-Mesaverde Oil Pool.

Order R-2112 sets out the pool rules for the Chaco Wash-Mesaverde Oil Pool. Paragraph (3) requires each well to be 165 feet from the boundary of the quarter-quarter section line and no nearer than 330 feet to the nearest well capable of producing from the same source of supply.

Therefore, until the pool rules are changed or an exception is granted after notice and hearing, the Ohwell #5 is not legally located for a producible well.

Until such rule change or exception is obtained and form C-104 is approved, the Ohwell #5 is not to be produced.

Yours very truly,

A. R. Kendrick
Engineer, District #3
