Re: Water Injection
Chaco Wash-Mesaverde Oil Pool

Gentlemen:

Order R-3346 defines your waterflood project in the Chaco Wash-Mesaverde Oil Pool. The order provides for water injection in one hole located 330 feet from the north line and 2310 feet from the west line of section 28, 20N-9W.

The Secretary-Director of the Commission is authorized to approve the drilling of wells at non standard locations for flood control.

We can not approve the injection of water into the Ohwell well #8.

Please secure approval from Mr. A. L. Porter, Jr., Secretary-Director of the Oil Conservation Commission prior to further injection into the Ohwell #8.

Yours very truly,

A. R. Kendrick
Engineer, District #3
