RE: Hospah #37 - X
McKinley Co., New Mexico

Dear Mr. Arnold:

This will acknowledge receipt of your letter dated June 10, 1970 and a conversation "via" telephone today with Jack Cook concerning a "Packer Leakage Test" on our Hospah #37-X well.

As per telephone conversation, we will be recompleting the well this next week with a retrievable packer. This work was necessitated as it was established that communications between the Upper and Lower Hospah sand producing formations existed.

Yours very truly,

TENNECO OIL COMPANY
