Re: Tenneco Oil Company
Hospah #37x
D 12-17-9
Hospah Lower Sand
South Pool

Dear Mr. Arnold:

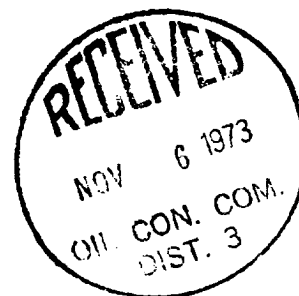

We are submitting the following packer leakage data on the reference well. It is a 24 hour test taken 10-15-73 on the upper zone and 10-3-73 on the lower zone.

UPPER ZONE:	Oil:	7
	Water:	16
	Gravity:	32.0 @60 degrees
	Gas Vol:	TSTM
LOWER ZONE:	Oil:	36
	Water:	440
	Gravity:	23.4 @60 degrees
	Gas Vol:	TSTM

In our opinion, this information indicated that there is no communication between the zones.

Yours very truly,

J. D. Hicks
