Re: Tenneco Oil Company
Hospah #37x
D 12-17-9
Hospah Lower Sand
South Pool

Dear Mr. Arnold:

We are submitting the following packer leakage data on the reference well. It is a 24 hour test taken 6-26-74 on the upper zone and 7-6-74 on the lower zone.

UPPER ZONE:	Oil:	56
	Water:	29
	Gravity:	32.0 @ 60 degrees
	Gas Vol:	TSTM
LOWER ZONE:	Oil:	52
	Water:	457
	Gravity:	23.6 @ 60 degrees
	Gas Vol:	TSTM

In our opinion, this information indicates there is no communication between the zones.

Yours very truly,

J. D. Hicks

JDH:ig

cc: Bill Jones; Tenneco Oil Company; Denver, Colorado.
