Hospah Lower Sand
South Pool

Dear Mr. Kendrick:

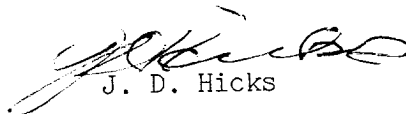

We are submitting the following packer leakage data on the referenced well. It is a 24 hour test taken on October 5, 1977 on the upper zone and October 6, 1977 on the lower zone.

UPPER ZONE:	Oil	22
	Water	41
	Gravity	32 @ 60 degrees
	Gas Vol	TSTM

LOWER ZONE:	Oil	37
	Water	602
	Gravity	23 @ 60 degrees
	Gas Vol	TSTM

In our opinion, this information indicates there is no communication between the zones.

Yours very truly,

J. D. Hicks
