Hospah #37X
D Sec 12-17N-9W
Hospah Lower Sand
South Pool

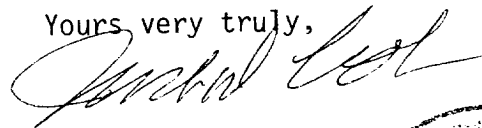

Dear Mr. Kendrick:

We are submitting the following packer leakage data on the referenced well.
It is a 24 hour test taken on November 18, 1979 on the lower zone.

UPPER ZONE:	Static level full of fluid
	0# pressure
	No production
LOWER ZONE:	Oil 70
	Water 3393
	Gravity 23 @ 60 degrees
	Gas Vol TSTM

In our opinion, this information indicates there is no communication between the zones.

Yours very truly,

Jack D. Cook
