Dear Mr. Chavez:

We are submitting the following packer leakage data on the referenced well.  
It is a 24 hour test taken on December 8, 1980 on the lower zone.

UPPER ZONE:	Static Level full of fluid
	0# Pressure
	No Production
LOWER ZONE:	Oil 81
	Water 3382
	Gravity 23 @ 60 degrees
	Gas Vol. TSTM

In our opinion, this information indicates there is no communication between the zones.

Yours very truly,

Jack D. Cook
