CERTIFIED MAIL

Tesoro Petroleum Corporation
2000 First of Denver Plaza
Denver, Colorado 80202

Gentlemen:

Reference is made to your Water Injection well No. 19 Hanson, NE $\frac{1}{4}$ SW $\frac{1}{4}$ sec. 6, T. 17 N., R. 8 W., McKinley County, New Mexico, Federal lease No. New Mexico 052931. Our records show that there are tight or damaged perforations above the packer, which have not been squeezed. It is doubtful that any significant benefits would be derived by breaking down these perforations and re-plugging them with cement.

You are hereby required to check the fluid level and/or pressure in the annulus monthly. This office will require a report of your first measurements. A record of subsequent measurements is to be available to the Minerals Management Service upon request and any significant changes are to be reported to this office as soon as practical after detection.

Failure to supply a report of your first measurements to this office, within 30 days of the date of this letter will result in an assessment of liquidated damages pursuant to 30 CFR 221. 54.

Sincerely yours,

Sue E. Umshler
for James F. Sims
District Oil and Gas Supervisor
