(Other) long term shut-in <input checked="" type="checkbox"/>		(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)	

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Citation Oil & Gas requests approval to maintain this well in long term shut-in status for the purpose of evaluating the wellbore for future production potential.

It is believed that economic producing potential exists in this well, however no production equipment is presently available. Economics do not warrant purchase of new equipment.

It is proposed that this well be maintained in its present shut-in condition until the well can be fully evaluated for production potential and returned to production when surplus production equipment becomes available.
