Attn: Mr. R. H. Denman

Dear Dick:

We have just received the well record form, electric logs and subsequent report of plugging on your Santa Fe RR #28 well in the Lone Pine Field.

As I recall, plugging instructions were given over the telephone; but we have never received form C-103, Notice of Intention to Plug. Will you please file three copies of this form so that the file will reflect that the plugging program was approved in advance?

Thank you.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
