17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well has been idle since May, 1974 because of high water cut and small oil production. We plan to do remedial work as follows:

1. Pull rods, downhole pump and tubing.
2. Squeeze cement Dakota perforations 3722-84 and 3793-95
3. Reperforate Dakota sandstone 3772-80
4. Attempt to recomplete as oil producer

This work will be under taken as soon as weather and equipment availability permit in 1975.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
