Dear Bob:

Please sign the certificate on each copy of the enclosed forms C-102 and return them to this office.

Rule 107 requires the production casing to be cemented at least 500 feet above the top perforation.

We will need one additional set of forms C-101 and C-102 to be able to supply you with an approved copy.

If there are questions please contact us.

Yours very truly,

A. R. Kendrick  
Engineer, District III
