We propose, subject to your approval, to plug and abandon this well. The well was drilled to 707' and T.D.'ed on April 13, 1973. At present the well has a five foot cement plug at surface and is filled with mud from surface to T.D. No oil sands or shows were encountered in this well. We will place one 100 foot cement plug from 300' to 400' feet and a 50 foot cement plug from surface to 50'.
