Re: Plugging Reports

Gentlemen:

Form C-103, Notice of Intention to Plug, your Fernandez
Lease Well No. 8

D-17-15N-6W was approved 7-23-73. Your
Unit S-T-R

subsequent notice of plugging cannot be approved until a commission representa-
tive has made an inspection of the location to see:

- (1) all pits have been filled and leveled;
- (2) a steel marker, 4" in diameter and approximately 4' above mean ground level, must be set in concrete, this marker must have the quarter-quarter section or unit designation, section, township and range numbers, which shall be permanently stenciled or welded on the marker;
- (3) the location shall be cleared and cleaned of all junk;
- (4) the dead man wires must be cut.

The above are the minimum requirements.

Please notify us by filling in the blank form below when this work has been done so that our representative will not have to make more than one trip to the location.

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

After completing drilling on this well, and while trying to run logs, the hole caved in. We were not able to get back in the hole with the drill pipe. There were no shows of oil or gas. In view of this, it is operator's intention to plug this well with a 200 sack cement plug in the surface.

Mr. E. C. Arnold, Supervisor of the New Mexico Oil Conservation Commission in Aztec, after being explained the unusual situation, gave telephonic approval to plug the well in the foregoing manner.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
